Education

Full-Stack Web-Development Bootcamp (Graduated)   Oct 2022 – Apr 2023
University of New Brunswick • Remote, NB

- Build front-end websites from scratch, as well as using ready-made frameworks to build efficiently.
- Create full-stack single-page web applications using RESTful API routes and AJAX methods and describe how front-end applications communicate with back-end applications and databases.
- Apply the accepted and standard basics of social coding—including source control, issue tracking, and functional feedback—as part of a development community, while building an application.
- Demonstrate strong teamwork and project management skills as a collaborator and independent contributor during the development cycle of complex projects.

Python Programming (Graduated)   Dec 2020 – May 2021
Georgia Institute of Technology • Remote, Georgia USA

- Fundamentals of computer science and programming: writing, executing, interpreting and revising code syntax.
- Usage of variables, mathematical operators, logical operators, and boolean arithmetic.
- Dynamic control structure programming, including conditionals, loops, functions, and error handling.
- Core data structures for useful programs: strings, lists, dictionaries, and file manipulation.
- Fundamentals of object-oriented programming and computer algorithms.

Responsive Web Design (HTML5, CSS, Bootstrap)   May 2021 – Jun 2021
Skillshare • Skillshare.com

- Build modern, professional websites for mobile, tablet and desktop devices.
- Use CSS media queries to create flexible layouts for any screen size.
- Display images and SVG icons in a flexible/scalable format.
- Create responsive navigation menus.

Professional Experience

Apprentice Electrician   Mar 2022 – Present
Prestige Homes • Sussex, NB

- Run wire through floors, walls, and across roofs.
- Installation of 200Amp service panels as well as generator panels.
- Wiring of switches and plugs, baseboards and thermostats.
- Connections of pot-lights and fans on the roofs.
- Following of proper safety procedures and proper PPE.

Heatpump/Generator Installer   May 2019 – Dec 2020
Ecoheat • Rothesay, NB

- Installed Daikin mini-split heat pumps in a residential and commercial setting.
- Ran electrical/copper piping for heat pumps and Generac generators (PVC conduit/burial).
- Completed onsite maintenance and repairs on residential HVAC systems.
- Commercial, residential, institutional and condominium service/projects.
- Maintained a safe work environment for team members.
- Kept all equipment in proper working condition.

Volunteer work

Maintenance   Jun 2017 – Aug 2021
Snider Mountain Ranch • Studholm, NB

Interests
- Building Computers
- Snowboarding
